

CONTENTS

INORGANIC CHEMISTRY

- 149 **Studies on the Interaction of Transition Metal Complexes of the Schiff Base Derived from Anthranilic Acid and Acetoacetanilide with DNA** — Raman N., Joseph J. and Rajasekaran K.

ORGANIC CHEMISTRY

- 161 **Regio- and Stereoselectivity in Glycosylation of Partially Protected 1-Thioglycosides with Glycals** — Pastuch G., Wandzik I. and Szeja W.
- 171 **Synthesis and Rearrangement of 2-(*N*-Methyl-*N*-nitroamino)-4-phenylthiazole** — Spaleniak G., Daszkiewicz Z. and Kyzioł J.B.
- 179 **Synthesis of the Enantiomers of 1-{2-Hydroxy-3-[4-(2-hydroxy-phenyl)-piperazin-1-yl]-propyl}-pyrrolidin-2-one Using Soluble and Polystyrene Bound SalenCo(III)OAc Complexes as Catalysts of Hydrolytic Kinetic Resolution** — Kulig K., Nowicki P. and Malawska B.
- 187 **Reactions of 'Cage' Dione with Primary Amines; Revision of an Earlier Report** — Romański J.
- 193 **NMR Studies of Tautomerism and Protonation Patterns in Bis(6-purinyl) Disulfide and Ionic Forms of 6-Mercaptopurine** — Pazderski L., Toušek J., Sitkowski J., Kozerski L. and Szlyk E.
- 211 **Synthesis and Selected Transformations of Optically Active Cyclopentenyl Sulfoxides: New Approach to Optically Active Cyclopentenones** — Midura W.H., Krysiak J., Wieczorek M.W. and Filipczak A.

PHYSICAL CHEMISTRY

- 225 **Physico-Chemical Studies of Polyurethanes with Dipolar Chromophore** — Arora S. and Kumar S.
- 237 **Facile One-Pot Synthesis of 2-(3,4-Dihydroxyphenyl)-2-phenyl-2H-indene Derivatives via Electrochemical Oxidation of Catechols in the Presence of 2-Phenyl-1,3-indandione** — Shamsipur M., Hosseiny Davarani S.S., Bayandori-Moghaddam A., Nematollahi D. and Ali Reza Fakhari
- 249 **Effect of Polymer Cations on Photoluminescence Properties of Blue Emitting Alkaline-Earth Metals and Silicon Based Phosphors** — Rahman M.M., Kida T., Nagano M. and Khan M.R.
- 257 **The Characterization of CuZnZrY Oxide Catalyst in the Steam Reforming of Methanol by EPR and XPS Spectroscopies** — Skrzypek D., Krupa K., Talik E. and Widuch S.
- 269 **Highly Correlating Distance-Connectivity-Based Topological Indices. 4: Stepwise Factor Selection-Based PCR Models for QSPR Study of 14 Properties of Monoalkenes** — Shamsipur M., Hemmateenejad B., Ghavami R. and Sharghi H.

COMMUNICATION

- 295 **A Simple Access to *O*-Acyl Bicine** — Andruszkiewicz R. and Koszel D.
