

CONTENTS

- 607 **Professor Tadeusz Marek Krygowski** — Grabowski S.J.
- 613 **Stabilization of W^{VI} in Nitride Environment via Acid/Base Reactions, and General Route to Layered Transition Metal Nitrides** — Grochala W.
- 621 **A Theoretical Study of Chiral Recognition in Bis[amino(phenyl)methanol]chromium(0) Complexes** — Zborowski K., Alkorta I. and Elguero J.
- 631 **[2+3]-Cycloadditions of Diazoalkanes with Imines of Hexafluoroacetone and Chloral** — Mloston G., Bodzioch A., Cebulska Z., Linden A. and Heimgartner H.
- 643 **Structure and Vibrational Spectra of the 1:1 Squaric Acid (H₂SQ) – Tetramethylpyrazine (TMP) Adduct** — Nowicka-Scheibe J., Grech E., Sawka-Dobrowolska W., Bator G. and Sobczyk L.
- 653 **Patterns of Counter-Rotating Ring Currents in Two Valence Isomers of Corazulene** — Lillington M., Fowler P.W. and Diudea M.V.
- 663 **Statistical Analysis of Consequences of *peri*-Interactions in 1-Si, 8-N- (and 1-X, 8-Y-) Substituted Naphthalenes** — Dominiak P.M., Schiemenz G.P. and Woźniak K.
- 683 **The Properties of the Dihydrogen-Bonded Dimer (BH₃NH₃)₂** — Cybulski H. and Sadlej J.
- 699 **Magnetic Resonance Energies of Polycyclic Aromatic Hydrocarbon Molecular Ions** — Ishida T., Kanno H. and Aihara J.
- 711 **Charge Localization in Monothiophosphate Monoanions** — Rostkowski M. and Paneth P.
- 721 **Five-Membered Heterocycles. Part V. Impact of Heteroatoms on Aromaticity of Five-Membered Heterocycles** — Mrozek A. and Karolak-Wojciechowska J.
- 731 **Alternate Copolymer of 3,4-Dioctyloxythiophene and 2,2'-Bithiophene: Synthesis, Electronic and Spectroelectrochemical Properties** — Pokrop R., Kasprzyk-Młynarczyk I., Zagorska M., Wielgus I., Mieczkowski J., Verilhac J.M., Wery J., Louarn G. and Pron A.
- 745 **How the Bonding Mode in Cyclopentadienylaluminum Complexes Influences the Cp⁻ Ligand Aromaticity** — Zachara J., Madura I.D. and Kunicki A.R.
- 757 **Hydrogen Bonds in Boronic Acids and Their Complexes** — Sporzyński A.
- 767 **Infrared and Raman Intensities in Proper and Improper Hydrogen-Bonded Systems** — Jabłoński M. and Sadlej A.J.
- 783 **Is the Aromaticity of the Benzene Ring in the (η⁶-C₆H₆)Cr(CO)₃ Complex Larger than that of the Isolated Benzene Molecule?** — Feixas F., Jiménez-Halla J.O.C., Matito E., Poater J. and Solà M.
- 799 **Intramolecular O–H...O Hydrogen Bonds – the Influence of External Agents on Their Properties** — Grabowski S.J.
- 813 **Monitoring Structural Transformations in Crystals. Part 10. Monitoring Molecular and Crystal Structures During a Yang Photocyclization Reaction – Comparative Studies** — Turowska-Tyrk I., Łabęcka I., Scheffer J.R. and Xia W.
- 825 **Conformation, Hydrogen Bonds and Their Effects on the Packing of Phenol, 2,2'-bis-[1,3-phenylenebis(methylidynenitrilo)] and Phenol, 2,2'-bis-[2,5-thiophenediylbis(methylidynenitrilo)]** — Fridman N. and Kaftory M.
- 833 **On Barrier Formation of Long-Lived Doubly Charged Benzene Dimer** — Kryachko E.S.
- 847 **Cyclic Voltammetric, Chronoamperometric and Quartz Crystal Microbalance Study on Hydrogen Absorption into and Dissolution of Pd and Pd-noble Metal Alloys** — Łukaszewski M. and Czerwiński A.
- 865 **Gas-phase Enthalpies of Formation of Tri-, Tetra- and Pentachloroanilines: Combined DFT and Experimental Study** — Ribeiro da Silva M.A.V., Amaral L.M.P.F. and Gomes J.R.B.
- 875 **Centrohexasindanes Bearing Methyl Groups in Their Molecular Propellane Cavities** — Kuck D., Hackfort T., Neumann B. and Stammmler H.-G.

- 893 **Synthesis and ^1H -NMR Characterization of the Self-Assembly Based on Melamine – 5,5'-Diethylbarbituric Acid** — Pokrop A., Lipkowski P. and Jurczak J.
- 903 **π -Electron Communication Through the Metal Valence Shell – W, Mo and Fe Complexes Containing Maleimidato Moiety** — Palusiak M.
- 911 **Analysis of Electron Density in *trans*-N,N'-Bis-(R-salicylidene)-1,2-cyclohexanediamines** — Dziembowska T. and Majerz I.
- 921 **The Role of Alkali and Alkaline Earth Metal Ions on the Hydrolysis of 2-Ferrocenyl-1,3-dioxane in Acetonitrile Solutions** — Navarro E., González F.J., Astudillo P.D., Vázquez-Hernández M., Hernández-Rodríguez M. and Juaristi E.
- 931 **Crystal and Molecular Structure of 1:1 Complex Between Piperidine-3-carboxylic Acid and *p*-Hydroxybenzoic Acid Studied by X-ray Diffraction, FTIR, ^1H and ^{13}C NMR Spectroscopy, and B3LYP Method** — Dega-Szafran Z., Jaskólski M. and Szafran M.
- 947 **Paracyclophanes. Part 58. On the Use of the Stilbene-Phenanthrene Photocyclization in [2.2]Paracyclophane Chemistry** — Hopf H., Hucker J. and Ernst L.
- 971 **Complete Assignment of All ^{13}C NMR Signals of C_5 Symmetric Monoazafullerene Derivatives by Comparison of Experimental and Calculated Spectra** — Hauke F., Chen Z.-F. and Hirsch A.
- 985 **“Atoms in Molecules” Analyses on Topological Properties of Bonds in Hydrazo-, Azo-, Azoxy- and Azodioxybenzene** — Ejsmont K.
- 993 **Substituent Effects in the *ortho* Position: Model Compounds with a Removed Reaction Centre** — Böhm S. and Exner O.
- 1007 **New Polymorphic Form of 1,4-Bis(3-pyridyl)-2,3-diaza-1,3-butadiene** — Ciunik Z. and Drabent K.
- 1011 **Comparison of the Proton (H^+) and Alkali Metal Ion (Li^+ , Na^+ and K^+) Binding Affinities of Pyruvate and Oxamate Anions in the Gas Phase. Quantum-Chemical Studies** — Duczmal K., Hallmann M., Raczyńska E.D., Gal J.-F. and Maria P.-C.
- 1021 **Molecular Clusters to Nanomaterials** — Singh N.J., Lee H.M., Suh S.B., Kołaski M. and Kim K.S.
- 1037 **Structural Studies of 1-Aryl-2-aminoimidazolium Bromides: Focus on Tautomer Preference of the 2-Aminoimidazoline Moiety in the Solid State** — Dobrowolski M.A., Cyrański M.K., Pisklak M., Wawer I. and Matosiuk D.
- 1049 **The Mediator Activity of Ce(IV)/Ce(III) Redox System Immobilized in Nafion[®] Film on Glassy Carbon** — Domagała S., Dziegieć J., Cichowski M. and Grobelny J.
- 1063 **A New Chiral 4-[(*E*)-2-Ferrocenylvinyl]-1-methylpyridinium Iodide Exhibiting Bulk Second-Order Nonlinear Optical Properties** — Janowska I., Zakrzewski J., Palusiak M. and Nakatani K.
- 1071 **Synthesis of O-Arylxanthates Esters and Derivatives** — Humeres E., Debacher N.A. and de Souza E.P.
- 1081 **Characterization of the Structure of PDP-DPPC Bilayers by DFT and PM3 Calculations** — Cieślak-Boczula K. and Koll A.
- 1095 **Co-crystals of 2,4,6-Trihydroxybenzoic Acid with Aromatic Diazaheterocycles – Crystallographic Studies** — Jankowski W., Kadzewski A. and Gdaniec M.
- 1109 **Computational Study of Deprotonation of Cyclopropa-Fused Quinones** — Eckert-Maksić M. and Glasovac Z.
- 1123 **On the Way to Physical Interpretation of Hammett Constants: How Substituent Active Space Impacts on Acidity and Electron Distribution in *p*-Substituted Benzoic Acid Molecules** — Sadlej-Sosnowska N.
- 1135 **Thermo-Solvatochromism of Zwitterionic Probes in Binary Mixtures of Tetramethylurea and Water: Relevance to Gelation of Lysozyme Solutions** — da Silva M.A., Martins C.T., Arêas E.P.G. and El Seoud O.A.

- 1147 **Identification of Adducts Formed in the Reaction of the Bacterial Mutagen 3-Chloro-4-(chloromethyl)-5-hydroxy-2(5H)-furanone with Cytidine** — Pluskota-Karwatka D., Munter T., Le Curieux F., Sjöholm R., Koroniak H. and Kronberg L.
- 1159 **Ab initio Optimizations of Molecular Structures and GIAO NMR Calculations of Chemical Shieldings of [8]- and [10]Paracyclophane and of [8](1,4)Naphthalenophane. Basis Set Dependence in Relation to Experimental 2D-NMR-Spectra and to Our APUDI Ring Current Model** — Dietrich F.-P., Zuschneid T., Ritter G., Regelmann C.U., Kaiser D. and Häfelinger G.
- 1191 **Synthesis, Characterization and Crystal Structure Studies of 1-(4-Chloro-benzenesulfonyl)-piperidin-4-yl-diphenyl-methanol** — Benakaprasad S.B., Naveen S., Anandakumar C.S., Sunilkumar Y.C., Sridhar M.A., Prasad J.S. and Rangappa K.S.
- 1201 **Intermolecular Interactions in Three Crystalline Acid Salts of Monocarboxylic Acids** — [Madej A.](#), Oleksyn B.J. and Śliwiński J.
