

CONTENTS

- 1681 **Professor Barbara Grzybowska-Świerkosz** — Haber J.
- 1687 **Palladium Complexes with Aminophosphine and Aminophosphite Based PNP and PCP Pincer-type Ligands as Catalysts of Heck Reaction** — Benito-Garagorri D., Kirchner K., Trzeciak A.M., Mieczysława E. and Ziółkowski J.J.
- 1695 **CO Transformation on Gold Catalysts – a Comparison with the Reaction on Pt/NbMCM-41** — Klimas W., Sobczak I., Marie O., Bazin P., Daturi M. and Ziolek M.
- 1705 **Ternary System V_2O_5 – MoO_3 – Ag_2O Diagram** — Wenda E. and Bielański A.
- 1711 **Metal Dispersion and Alloy Homogeneity in Highly Dispersed Pt-Au/ Al_2O_3 Catalysts** — Yurkiv V., Legawiec-Jarzyna M., Juszczyk W., Kowalczyk Z. and Karpiński Z.
- 1717 **Polyaniline Supported Pd and Pt Catalysts. Role of Metal in Hydrogenation of 2-Butyne-1,4-diol** — Drelinkiewicz A., Zięba A., Król A., Sobczak J.W. and Grzywa M.
- 1733 **Steam Reforming of Methane on the Ni-Re Catalysts** — Borowiecki T., Denis A., Pańczyk M., Gac W. and Stołeczki K.
- 1743 **Catalytic Decomposition of Ethylene on Iron – the Effect of Process Conditions on the Yield and Morphology of Nanocarbon Products** — Narkiewicz U., Pelech I., Arabczyk W., Biedermann K. and Tüschner Ch.
- 1753 **Preparation of TiO_2 for Photocatalytic Applications – Doping of TiO_2/Ti with Transition Metal Ions** — Haber J., Nowak P., Socha R.P. and Żurek P.
- 1767 **Photocatalytic Oxidation of Ethanol During Hydrogen Generation from Water-Ethanol Mixture over Gadolinium-Doped Titania** — Zalas M., Gierczyk B. and Łaniecki M.
- 1779 **Mechanism of Hydrogen Abstraction by O^- Species in Oxidative Dehydrogenation of Early Alkanes: Propane, Ethane and Methane. Model Theoretical DFT Study** — Góra A. and Broclawik E.
- 1793 **Kinetics of Methanol Decomposition over Superbasic Alkali Metal Modified Zinc Oxide** — Winiarek P. and Kijęński J.
- 1801 **Cu^+ , Ag^+ and Na^+ Cationic Sites in ZSM-5 Interacting with Benzene: DFT Modeling** — Załucka J., Kozyra P., Mitoraj M., Broclawik E. and Datka J.
- 1809 **Nanomaterials with a Multimodal Pore Structure Based on the MFI-type Zeolite** — Burkat-Dulak A., Pashkova V., Pudło W., Włoch E., Jarzębski A. and Derewinski M.
- 1823 **Vanadium-containing Mesoporous Molecular Sieves: Synthesis, Properties and Catalytic Performance in Oxidative Activation of Light Alkanes** — Cortés Corberán V. and Sulikowski B.
- 1839 **Selective Oxidation of Light Alkanes on Transition Metal Promoted Vanadyl Pyrophosphate (VPO) Catalysts** — Haber J., Stoch J., Zazhigalov V.A., Bacherikova I.V. and Cheburakova E.V.
- 1853 **Modification of Tetraphenylporphyrin Ring in Manganese(III) Complexes – Theoretical Description of the Influence on Their Physicochemical Properties** — Szaleniec M., Tokarz-Sobieraj R. and Witko M.
